EXPANDING INTEGRATED AGRICULTURAL SYSTEMS USING MULTIDISCIPLINARY RESEARCH AND EXTENSION STRATEGIES

April 14
3:30 pm

Presented by
DAREN REDFEARN
Associate Professor, UNL Agronomy and Horticulture

The identification, development, and evaluation of agronomically sound, environmentally acceptable and economically viable forage-crop-livestock systems is fundamental to agricultural diversification. Efforts toward developing such systems will be described.

Keim Hall, Room 150
UNL East Campus
Refreshments served at 3pm
