WRITTEN EXAM DATE: _____

EXAMINER	SIGNATURE	GRADE
	WRITTEN EXAM GRADE	

The Supervisory Committee has chosen not to have an oral exam (date). _____
If the oral exam is waived, all committee signatures are required below

ORAL EXAM DATE: _____

EXAMINER	SIGNATURE	GRADE
	ORAL EXAM GRADE	

Grading of written comprehensive exams is on a numerical scale of 0=worst to 4=best. Numerical scores need to be assigned by each examiner. The same numerical grading is used for the oral comprehensive exam, with a score of 0 - 4 assigned by each of the members of the examining committee in the oral exam. A student who receives a grade less than 2.0 from an individual examiner may be required by the supervisory committee to take another course or another written question on that general subject and satisfactorily answer it for the staff member and advisory or supervisory committee involved. The final grade of each section of the written and oral portion of the comprehensive examination will be the mathematical average. The overall grade for the comprehensive exams is the numerical average of the written and oral exam scores. A passing grade is 2.2 for each exam.

FINAL GRADE

COMMENTS:

Form is to be submitted to Agronomy Graduate Committee by Major Advisor(s). (Graded examinations are to be kept in the department's graduate student file until his/her final defense, then returned to the student by the advisor.)
