

# LEVERAGING NEBRASKA'S BIORESOURCES FOR WEED CONTROL IN SPECIALTY CROPS

Presented by

**SAM WORTMAN**

*Assistant Professor, Agronomy and Horticulture, University of Nebraska-Lincoln*

**Spring 2019 Agronomy and Horticulture Seminar Series**

Nebraska is rich in bioresources, many of which can be used in specialty cropping systems to provide valuable agronomic functions. This seminar will highlight current research on bio-based mulches, seed meals, and sprayable films to manage weeds and increase profitability of vegetable production.

**FRIDAY**  
**January 18**  
**3:30 pm**

*Refreshments served at 3 pm*

**Room 150, Keim Hall, East Campus**  
**University of Nebraska-Lincoln**

**LIVE STREAMING**
