

# INTEGRATED WEED MANAGEMENT IN THE PANHANDLE OF NEBRASKA

Presented by

**NEVIN LAWRENCE**

*Assistant Professor, Integrated Weed Management Specialist,  
Agronomy and Horticulture, University of Nebraska-Lincoln*

## Spring 2019 Agronomy and Horticulture Seminar Series

The Panhandle of Nebraska can be characterized by its unique soils, climate, and crops, compared to greater Nebraska. With limited herbicide options available to farmers because of soil conditions and crop tolerance restrictions, farmers must leverage targeted crop rotations and cultural practices to attain sustainable weed control. Current research will be discussed.

**FRIDAY**  
**January 25**  
**3:30 pm**

*Refreshments served at 3 pm*

**Room 150, Keim Hall, East Campus**  
**University of Nebraska-Lincoln**

**LIVE STREAMING**
