

COVER CROPS AND SOIL ECOSYSTEM SERVICES IN THE GREAT PLAINS

Presented by

SABRINA RUIS

*Postdoctoral Research Associate, Agronomy and Horticulture,
University of Nebraska-Lincoln*

Spring 2019 Agronomy and Horticulture Seminar Series

Cover crops may provide many soil ecosystem services in Nebraska and other similar regions in the Great Plains. However, the ability of cover crops to deliver ecosystem services may be limited by cover crop management. Ruis will discuss the relationships between cover crop management and cover crop effects on soil ecosystem services.

**FRIDAY
February 1
3:30 pm**

Refreshments served at 3 pm

**Room 150, Keim Hall, East Campus
University of Nebraska-Lincoln**
