

# INPUT USE EFFICIENCY AND FARM PROFITABILITY AS INFLUENCED BY MANAGEMENT PRACTICES

Presented by

**DARAN RUDNICK**

*Assistant Professor, Irrigation Management Specialist, West Central Research and Extension Center, Biological Systems Engineering, University of Nebraska-Lincoln*

## Spring 2019 Agronomy and Horticulture Seminar Series

The Testing Ag Performance Solutions (TAPS) program provides a platform where producers can try new and emerging technologies and management strategies under a low risk environment. An overview of the TAPS program, along with management decisions made and their resulting efficiencies and profitability will be discussed.

**FRIDAY**  
**March 29**  
**3:30 pm**

*Refreshments served at 3 pm*

**Room 150, Keim Hall, East Campus**  
**University of Nebraska-Lincoln**

**LIVE STREAMING**
