

# IMPACTING PEOPLE'S LIVES STRATEGIES TO PROVIDE NUTRIENT- ENRICHED STAPLE FOOD CROPS

Presented by

**MICHAEL GRUSAK**

*Center Director, USDA-ARS Edward T. Schafer Agricultural Research Center,  
Fargo, North Dakota*

## Spring 2019 Agronomy and Horticulture Seminar Series

Food crops can provide nutrients to people, but nutrient levels are not always adequate to supply required daily amounts. Grusak will discuss conceptual approaches to determine nutritional targets, along with transgenic strategies to increase iron and zinc concentrations, in cassava storage roots for African consumers.

**FRIDAY**  
**April 5**  
**3:30 pm**

*Refreshments served at 3 pm*

**Room 150, Keim Hall, East Campus**  
**University of Nebraska-Lincoln**

**LIVE STREAMING**
