PULSE CROPS PRODUCTION AND INDUSTRY DEVELOPMENT IN NEBRASKA

Presented by

STRAHINJA STEPANOVIC
Nebraska Assistant Extension Educator
West Central Research and Extension Center, North Platte

ALEXANDRE TONON ROSA
Doctoral student and graduate research assistant
Agronomy and Horticulture, University of Nebraska–Lincoln

Strahinja and Tonon Rosa will discuss pulses (field peas, chickpeas, and lentils), their adoption into Nebraska’s diversified cropping systems and consequent growth of the Nebraska pulse crops industry. They will share details on how the industry has changed and answer any questions on growing and marketing pulses across different regions of the state.

FRIDAY
October 26
3:30 pm
Refreshments served at 3pm
Room 150, Keim Hall, East Campus
University of Nebraska–Lincoln
