Instructional Sub-committee  
Don Lee

Course proceeds to Department Curriculum Coordinating Committee. Once committee and department head approve, course is entered into creq.unl.edu. If not approved, course does not move forward, or is returned to course proposer.

When approved by all department parties, course is sent to CASNR Curriculum Committee (Walter Schacht, current rep.)

If approved by CASNR, course is sent to University Curriculum Committee (UCC) and/or Graduate Council for final approval and bulletin publication.

**End**

Courses may be returned to the Course Proposer for revisions at anytime during the review process. Expect the entire process to take about one to two months.
